Coordination of Programs

Technical Assistance

The LEA provides guidance, technical assistance, and support to schools developing schoolwide programs in the areas of needs assessment, comprehensive planning, implementation, and evaluation of schoolwide program and requirements.

Describe the technical assistance provided. Explain why it was considered high quality technical assistance.

The technical assistance provided to the school was through the District’s Assistant Superintendent, Dr. David Wright. Dr. Wright researched areas of need in Schoolwide Title 1 programs and determined ways to transition these areas into the school. He then provided continued assistance throughout the planning process. The school had already developed a tiered intervention model. The goal was to improve the process already created and to maintain its success through evaluation meetings with faculty and staff as well as making adjustments to evaluation measures.
